

Pupil Acceptable Use of Technology Sample Statements

Although statements for pupils are collected within key stages, it is recommended that settings amend and adapt them according to their own cohorts needs.

Settings should ensure their AUP includes age and ability appropriate information and expectations relating to the specific use and monitoring of school provided devices and networks, services and/or systems, for example laptops, tablets and cloud computing, as well as use of learner owned devices such as mobile/smart phones, tablets and wearable technology.

The template statements and headers are suggestions only and some statements are duplicated; we encourage educational settings to work with their community to amend the statements so they can develop ownership and understanding of the expectations.
